Knowing Narcolepsy

Description

The topic I've chosen is Narcolepsy. I have been diagnosed with narcolepsy and would like to make that my topic as I feel like I have a lot of information to share about it. I was inspired by the first web page I made on it as I felt like I could potentially have an impact on spreading awareness of what exactly narcolepsy is. I also feel like I could help others who may feel underrepresented on the internet with their condition.
