

Loading into the usc by app

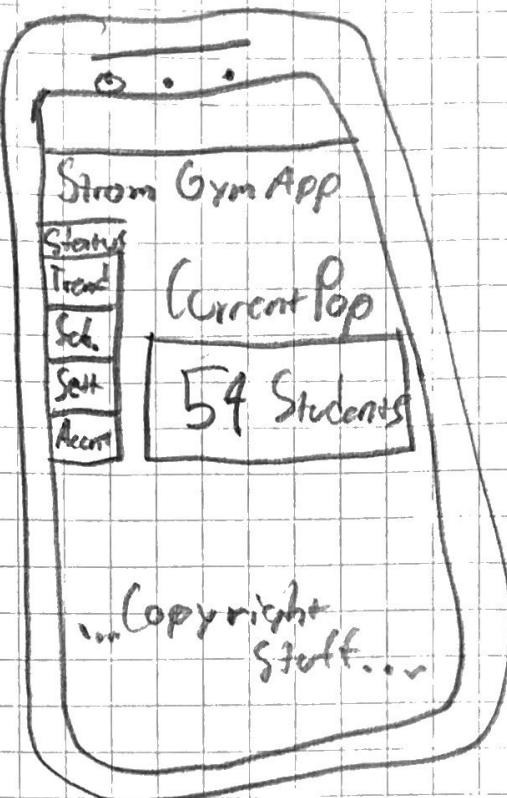

We are given a graph of the population of the gym throughout the day. The user has the option of messages, home, and settings.

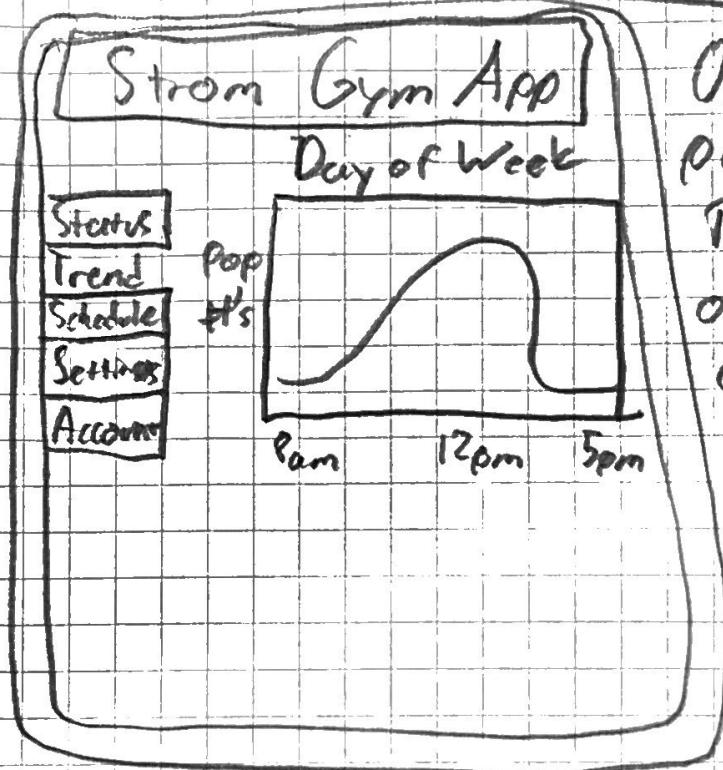

After clicking reminder the user is set with a time that best fits their schedule off the population in the gym

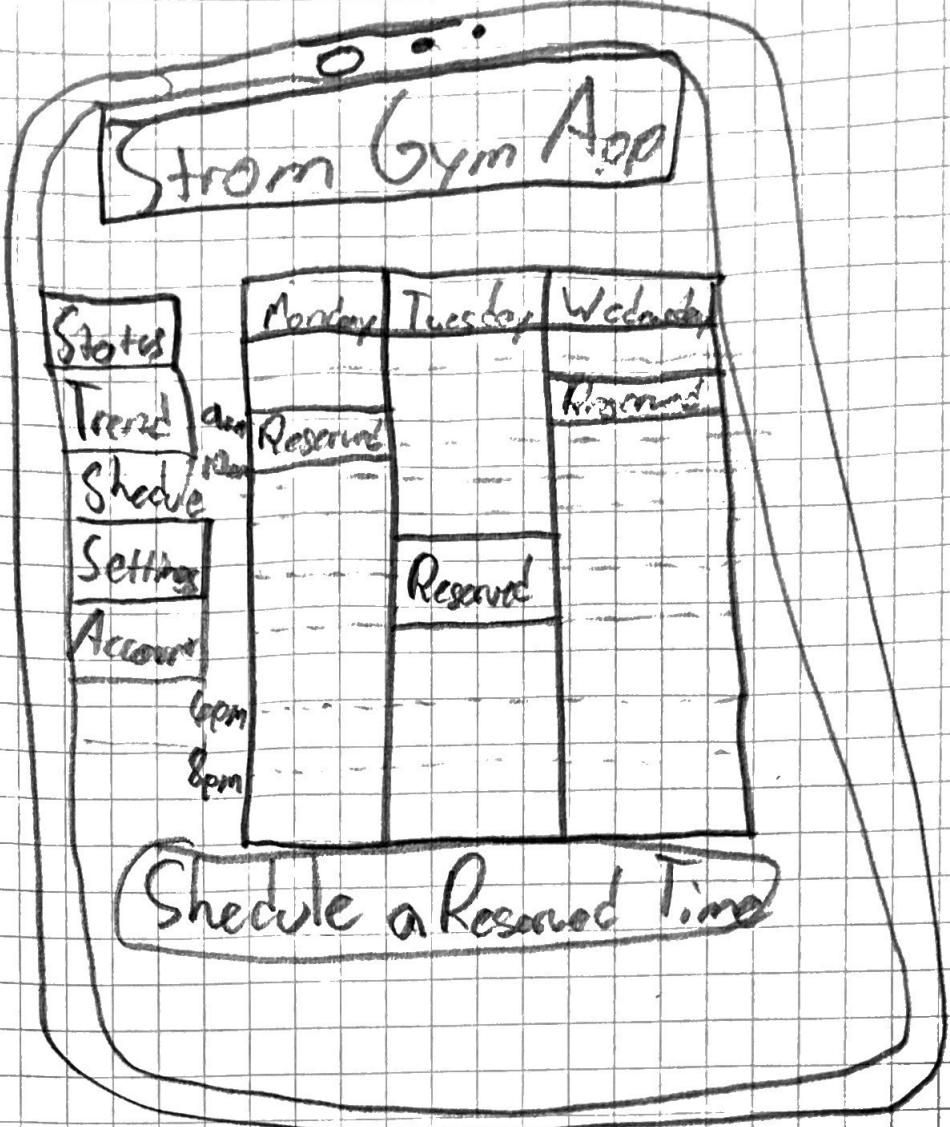

Click
Log-in

First Tab describing
the current population
of the gym.
This can be used on
phone, ipad, or
any browser.

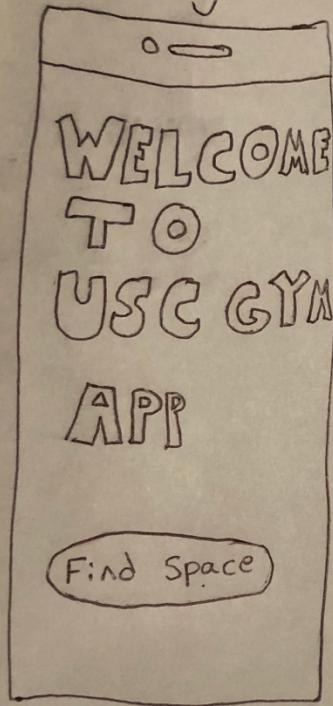

On the trend
page it will show
the typical population
on days of the week
organized by
hours.

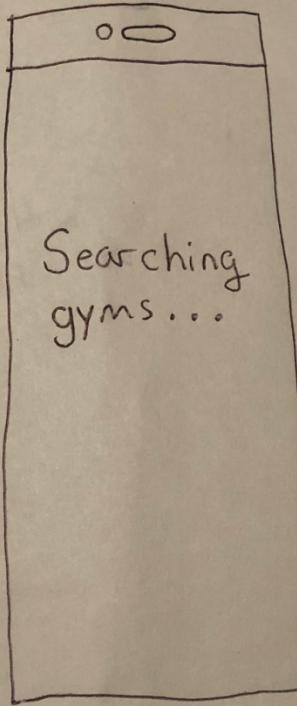

On the "Schedule" tab students would be allowed to schedule reservations for specific locations like the pool, courts, & more.

Home UI for
Gym availability
app

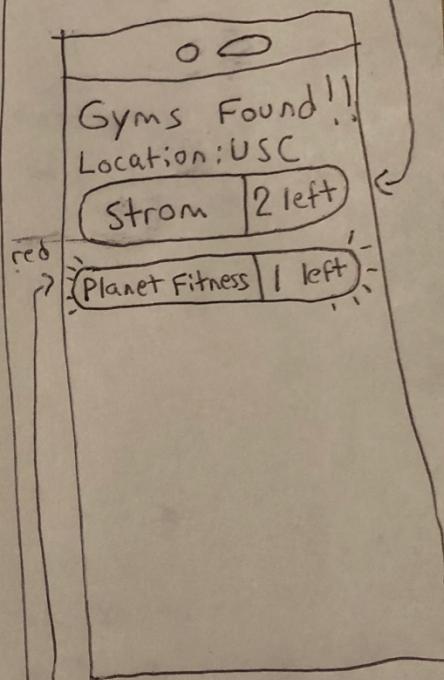

Click "Find Space"
to look for location
and availability.

Once clicked,
starts searching
gyms with available
spots!

Number of spots
in gyms around USC

If availability
is limited, notification
is red!!
